

VIRTUAL FILM SCREENING

DREAM BIG: ENGINEERING OUR WORLD

All around the world, engineers are pushing the limits of ingenuity and innovation in unexpected, imaginative, and amazing ways. Dream Big: Engineering Our World, a giant-screen film about engineering, takes viewers on a journey of discovery from the world's tallest building to a bridge higher than the clouds. Along the way, the audiences witness how today's engineers are shaping the world of tomorrow.

This program is sponsored by the American Society of Civil Engineers (ASCE) in partnership with the STAR Library Network (STAR Net) and its Project BUILD engineering program. Project BUILD is supported by the National Science Foundation.
