ECO-WISE LECTURE SERIES

Join us for our summer series of Eco focused lectures presented in partnership with Emerald Keepers. All lectures will be recorded and available for on demand viewing following the events.

All presentations will begin at 11 a.m.

JUNE 10: ORGANIC RECYCLING

Presented by Edco

Curious about Edco's new Organic Recycling program? Not sure it's right for you? Edco's Marco Topete will share the program's background, how it works, and answer your questions.

JUNE 17: ELECTRIC VEHICLE 101

Presented by the Electric Vehicle Association of San Diego

Electric Vehicles are seemingly everywhere these days. Join Elaine Borseth, Vice President of the Electric Auto Association and learn about how functional electric cars can be, common misconceptions, and have your questions answered by people who actually drive them everyday.

JULY 1: STATE OF THE AIR

Presented by the American Lung Association

For 22 years, the American Lung Association has analyzed data from official air quality monitors to compile the State of the Air report. The more you learn about the air you breathe, the more you can protect your health and take steps to make the air cleaner and healthier. The American Lung Association will share findings from their recently released 2021 report and what they mean for Coronado.

JULY 8: PERMACULTURE

Presented by Finch Frolic Garden Permaculture

Have you thought about Permaculture? Permaculture teaches how to design your property to manage rainwater, stack functions so that each element works with the other, how to feed your soil rather than your plants, cut your costs considerably, and so much more. Join Diane Kennedy as she explains why permaculture is accessible and beneficial for your property.
